Morning Amy -

Would you please add my name to the town record as one who supports the Carpenter Preserve Bonds.

I am a firm believer that preserving natural areas benefits our town in many ways. I don't think it is just about having more park land for resident users of town parks. Preserving natural land also helps to preserve our air quality, helps to mitigate flooding, can play a role in Tº moderation, and support pollinators at the beginning of the human food chain in a way that even impacts non users of the actual physical space of our parks.

This is a unique situation for Zionsville to obtain more natural land to benefit park and non-park users for a bargain price through use of grants and Jim and Nancy's generosity.
