Good morning Amy,

My neighbor, Craig Fuhrmann, sent this letter to the mayor and Town Council members but did not know to include your e-mail address. Can you please add this to the record and send him confirmation? He was very concerned when his letter was not represented.

Thank you,
Lisa Sandy

In my opinion here are Some visual pictures of how new homes can look bad and or good helping to preserve the proper ambience in our Village.

- #1) 515 W pine St..looks like a long, long barn
- #2) en of pine st..goes from one block to next..over looks rail trail
- #3) the rear of #2
- #4) 435 west 4th.."bring back the trailer"..looks like attached town houses
- #5) same as #4
- #6) 965 w pine built 2017..last house..blends in very well with neighbors
- #7) 429 w pine st built 2016..blends in very nicely to circa 1865 neighbor
- #8) 185 & 175 n elm overlooking the park gardens ..built 2001 & 2002..both look similar to vintage village homes.

Take a drive to see these homes yourself. Up close you can see the bad examples and the good that fit into the ambience of the village area that's proposed Historic Conservation District.
