Subject: RE: NOT a Historic District

"YES, I SUPPORT THE ORDINANCE CREATING A PRESERVATION COMMISSION!"

I lived in the area that would be subject to what the Preservation Commission develops for over 20 years. The Preservation Commission is the only way to preserve the unique character of what is known as the Village. Those who oppose it are spreading the same falsehoods had were spread the last time the creation of an historic district was attempted. While I no longer live in the Village, I strongly support the creation of the Preservation Commission.
