Subject: Preservation Commission

Dear Zionsville Town Council Members:

I am a member of the Historic Preservation Committee and have lived on Pine Street in the Village for 45 years. The Committee has worked tirelessly over the past three years to promote an open, transparent and straightforward examination of what we might do to retain the unique community that residents enjoy and visitors admire. You have already taken the first step toward making this effort a reality, and I appreciate your support.

Now we are faced with a last-minute campaign filled with misinformation and fear mongering, as if creating a Historic Preservation Committee to even discuss the future of our Village somehow guarantees that homeowners will have no input. The truth is that we currently have only the protection of zoning regulations that have been capriciously enforced at best in the past, and no input at all. A Zionsville Preservation Commission will allow all Village residents an opportunity to review a clear picture of where we are and what our options might be to best guide our future while respecting our past.

I fully support the creation of the Zionsville Preservation Commission and urge you to pass this on second reading at the next Town Council meeting.

Thank you very much for the hard work and dedication that you bring to the task of making Zionsville a better place for all of us. It is undoubtedly a difficult challenge at times, and I do appreciate your work.

Lisa Sandy
