**Subject:** support for historic commission

Hello,

I'm writing to support the ordinance for a historic preservation commission. I don't live in the village but I chose to live in Zionsville because I love how unique the town is. A big reason it is so unique is because of the history. Carmel, Fishers, and other areas have torn down all of their history and old buildings, and now all look the same. Zionsville has something they don't and I think it's worth finding a way to protect.
