STREET DEPARTMENT REPORT  
ZIONSVILLE TOWN COUNCIL MEETING  
MARCH 2, 2009

1. **106<sup>TH</sup> ST. REALIGNMENT AND RECONSTRUCTION**

The utility companies have nearly completed all their required relocations, and the contractor is installing the storm sewer collection system.

2. **STARKEY PATHWAY**

The contractor is currently constructing the retaining wall on which the pathway will be placed. The wall should be completed this month, after which the pathway will be placed once asphalt is in production for the season.

3. **DOWNTOWN STREETScape PROJECT**

A final walk-through is scheduled with the engineer for Wednesday, March 4 for a final field-check. Four private property owners will have access to their properties modified as part of this project, and staff continues to work with them to address concerns and obtain any necessary rights of entries (ROE's). A ROE is necessary in cases where work will need to be performed outside of the right of way, typically for lawn and landscape restoration.

4. **SR 334 AND TURKEYFOOT PATHWAY DESIGN**

Proposals for engineering services for the design of these two pathways are under final review and reference verifications. A recommendation to the Town Manager for each project will be made this month and public input meetings will be scheduled.
