NPDES VIOLATIONS	0	0
PERCENT FLOW CAPACITY	46%	47%

ADDITIONAL COMMENTS:

- Two bids were received for the 2014 Sewer Rehabilitation Project. The apparent low bidder was SLB Pipe Solutions, LLC. SLB Pipe Solution's total base bid was in the amount of \$331,140.00 (after correction for a minor mathematical error). The other bidder Layne Inliner, LLC, submitted a total base bid of \$388,025.00. SLB Pipe Solutions bid contained an irregularity - financial information was not submitted as required by state law and the legally required Form 96. Based on the invalidity of SLB's bid and the extent that Layne's bid exceeds the project budget, our Town Engineering firm recommended that the project be re-scoped and re-bid with only the most important project components. The scope has be reduced, public notification has been made, and a new bid opening is scheduled for August 14, 2014 at the Town Hall at 3:00pm.
