AVERAGE DAILY FLOW	0.700 MG	0.843 MG
PRECIPITATION	0.73 in	0.55 in
NPDES VIOLATIONS	0	0
PERCENT FLOW CAPACITY	35%	42%

ADDITIONAL COMMENTS:

- Merrell Bros., Inc., of Kokomo, IN, have been contracted to clean and dispose of the sludge in our Polishing Pond #1. They are the same company that we have contracted to dispose of our digested sludge since 1998. Our Town Engineering firm has nearly completed the remaining specifications to seek quotes on the remaining work. That work consists of clearing, grubbing, earthwork, and the installation of a new clay liner.
