HIGHEST DAILY FLOW	2.80 MG	1.51 MG
AVERAGE DAILY FLOW	1.37 MG	1.05 MG
PRECIPITATION	5.0 in	4.1 in
NPDES VIOLATIONS	0	0

ADDITIONAL COMMENTS:

- Bids were received on May 19, 2011, for the construction of the 2011 Sewer Rehabilitation project. Five bids were received for the construction project and the two lowest bid amounts for the project were as follows:

Insituform Technologies USA, Inc. , Indianapolis, Indiana \$157,696.60

American Infrastructure Technologies Corp., Hanceville Alabama \$187,100.00

Last year's project was performed by Insituform and my department was extremely satisfied with their work performance and has no doubts that this year's project will go as smoothly. A tentative award letter has been sent to Insituform Technologies USA, Inc. and the contract and the Notice to Proceed will be executed after submission of their payment and performance bonds.

Respectfully submitted:

Dennis Mackey
Waste Water Department Superintendent
