

ZIONSVILLE WASTE WATER MONTHLY REPORT

OCTOBER 2010

TOTAL FLOW	23.06 MG
HIGHEST DAILY FLOW	0.775 MG
AVERAGE DAILY FLOW	0.744 MG
PRECIPITATION	1.5 in
NPDES VIOLATIONS	0

ADDITIONAL COMMENTS:

- The 2010 third quarter budget review was submitted to the Town Manager. Projected year end expenses are projected to be well within the approved budget.
- The 2011 Budget Request was also submitted to the Town Manager for distribution to the Town Council. It has come to my attention by the Clerks Treasurer that I made an error for the amounts to be included in my request concerning bond and ban payments. Corrected copies will be sent out after making those adjustments.
- The Zionsville Road Sewer Project did not meet the contract deadline for final completion of October 26, 2010. The contractor, Weihe Construction, Inc., has submitted an amended project schedule that shows final completion to be December 10, 2010. All gravity sewers are installed but will not be eligible for testing for 30 days after installation, service line taps need to be installed on the small diameter force mains, and the lift station has substantial work to be done.

Respectfully submitted:

Dennis Mackey
Waste Water Department Superintendent
