

# ZIONSVILLE WASTE WATER MONTHLY REPORT

## SEPTEMBER 2010

## SEPTEMBER 2009

TOTAL FLOW	21.46 MG	22.76 MG
HIGHEST DAILY FLOW	1.018 MG	0.955 MG
AVERAGE DAILY FLOW	0.715 MG	0.759 MG
PRECIPITATION	0.25 in	1.5 in
NPDES VIOLATIONS	0	0

### ADDITIONAL COMMENTS:

- Work continues on the Zionsville Road Sewer Project. The boring work going along the west side of Zionsville Road is proceeding very slowly due to encountering rocky formations forcing the contractor to tunnel by hand within the casing. The final completion date of October the 26<sup>th</sup> will not to be met.

Respectfully submitted:

Dennis Mackey  
Waste Water Department Superintendent
