STREET AND STORMWATER DEPARTMENT REPORT FOR THE MONTH OF SEPTEMBER, 2012

1. **STORMWATER PERMIT ACTIVITIES**

Routine inspections of fourteen (14) Rule 5-permitted sites were conducted in September.

Interpretive signage developed for the project has arrived and is ready for installation to educate Town Hall visitors on the purpose and intent of the project. This contributes toward the requisite educational initiatives of the Town's NPDES stormwater permit.

Gavin Merriman, Stormwater Program Manager, assisted in the coordination of a Hoosier Riverwatch Advanced E. coli training at the Zion Nature Sanctuary to collect data for submission to the State. He also participated in the Zion Nature Center Creek Stomp event to educate residents on local wildlife and water quality.

Gavin Merriman passed the Envirocert Certified Erosion and Sediment and Stormwater Inspector exam to become a certified inspector.

2. **STORMWATER MANAGEMENT BOARD**

There is no activity as the Board did not meet this month.

3. **FIRST STREET PROJECT**

Final revisions have been made to the design development plans, and meetings with previously identified individual business and property owners facing significant impacts are complete. However, additional meetings with subsequently identified individual property owners are still ongoing. The project

design budget is being reviewed to see if there is funding still available to enlist the assistance of the consultant to complete the personal interviews.

A project web site has been developed for this project, and the layout may be viewed at www.reasite.com/firststreet/. Revisions to this project will not be posted until all individual meetings are complete.

Once the study report is finalized, an ordinance will be drafted and presented to the Plan Commission who will hold a public hearing on the matter and consider it for approval. Upon said approval, the ordinance will be forwarded to the Town Council for consideration.
