

## OVERLEY-WORMAN PARK MASTER PLAN

### Notice of Public Input Meetings

February 23, 2017

**Title:**

Public Input for the Overley-Worman Park Master Plan

**Purpose:**

The Town of Zionsville is in the process of creating a master plan for a new park called the Overley-Worman Park. This park will be located on land adjacent to Eagle Creek across from Starkey Nature Park behind the new Vonterra subdivision located on Zionsville Road. The master plan is being created to ensure that the park best meets the needs and wants of the many user groups, both today and in the future. Rundell Ernstberger Associates, an Indianapolis based landscape architecture and planning firm, has been retained to provide facilitation and technical guidance in this process, which will include a review of current property features, an ecological analysis of the creek and natural areas, recommended modifications to the park, construction costs and phasing, and several opportunities for community input.

We need your help with this project by providing your thoughts and input. There are a variety of ways to reach out to the project team. Information and links are provided below.

**Public Open House:**

Date: March 7, 2017

Time: 6:30-8:30 (Open house – come anytime during this timeframe)

Location: Zionsville Town Hall, Community Room

Purpose of Meeting: gather input on existing conditions and wants and wishes for new park improvements

**Open Design Workshop:**

Date: March 8, 2017

Time: 8:00-4:00 (Open – come anytime during this timeframe to watch designers and offer input)

Location: Zionsville Town Hall, Community Room

Purpose of Meeting: the consultant team will be forming concepts for park layouts in an open workshop format where work will be completed in a transparent way, open to anyone who would like to drop by and offer input

**Public Presentation:**

Date: March 9, 2017

Time: 6:30

Location: Zionsville Town Hall, Community Room

Purpose of Meeting: gather input on conceptual layouts for the new park
