May 18, 2017

Town announces online payment system rollout

Starting today, Zionsville residents can login to the Town of Zionsville website and pay their sewer and trash/recycling bills online. Residents will continue to receive monthly payment reminders in the mail, however, this option allows residents to pay their bills from the convenience of their homes.

Besides paying online, residents also have the option of paying by mail, submitting payment to the drop box to the east of Town Hall building or coming into Town Hall and paying by credit card or cash. Residents can also enroll in the [automatic payment plan](#) by bringing in the completed form and a voided check. The user's bank or other financial institution will be able to pay the sewer and trash bill each month automatically and on time.

For those who choose the online payment option, users can opt for a "quick pay" method in which no login is required or users can register and create an account to review transaction history and account information, to manage multiple requests and to save a credit card on file for future payments. There is a \$1.50 fee per transaction.

To access online payment, visit www.zionsville-in.gov and under "How Do I...", find the "Submit" column and click "Online Payments."
