OLD BUSINESS

Consideration of an Ordinance to Vacate an Alley Ordinance 2024-49 (Final Reading)

Plunkett Up next is the first item of Old Business which is a Consideration of an Ordinance to Vacate an Alley. This is Ordinance 2024-49. You'll recall this is a final reading. I believe we do have Roger Kilmer here, Senior Planner, if needed. I would probably in an effort to keep Roger from having to jump on here just reiterate this is something that we've done in the past in the Village, especially where we have vacated those alleys so that those folks can have whether it's additional lot capacity or just, just maintenance on, on behalf of the town. So, I'm sure Roger is here if there are questions. Again, we heard this last time so – are there any questions from Councilors? If there are none, I would make a motion to approve Ordinance 2024-49 on final reading.

Sampson Second.

Lacy Councilor Stein?

Stein Yes.

Lacy Thank you.

Plunkett All right, motion passes 7 in favor, 0 opposed.

NEW BUSINESS

Plunkett I would point out Councilors, up next on the agenda would typically be a New Business item which is a Consideration of an Ordinance to Amend the Zoning Ordinance for Streetlights. After understanding that there was a resident who did want to speak on this and knowing that we did not have a public speaking option for this virtual meeting, we've elected to pull this from this agenda and put it on the February agenda so that that particular resident has the opportunity to come in and speak their mind on this particular matter.

OTHER MATTERS

Plunkett So, with that being said, we'll move on to Other Matters. Are there any other matters from Councilors? All right, having none, I would again just reiterate I know every one of you guys just appreciates the work that all of our public safety personnel and Street Department, DPW and everyone, in fact, for the town that has to work through these environments and they've done a great job and you know appreciate all the work that they've put in and I just want to make sure that that doesn't go unnoticed so.

ADJOURN

Plunkett If there is nothing else, I would actually make a motion to adjourn.

Norris Second.

Plunkett And a second from – was that Vice President Burk?

Norris No, it was Norris.

Plunkett Evan Norris, Councilor Norris. All right.

Lacy Okay.

Plunkett Second from Councilor Norris.

Lacy President Plunkett?

Plunkett Yes.

Lacy Vice President Burk?

Burk Yes.

Lacy Councilor McElderry?

Zionsville Town Council
January 6, 2025

Lacy Councilor Melton?

Melton Yes.

Lacy Councilor Norris?

Norris Yes.

Sampson Yes.

Lacy Councilor Stein?

Stein Yes.

Lacy Thank you.

Plunkett All right, motion passes 7 in favor, 0 opposed.

The next regular Town Council meeting is scheduled for Monday, February 3, 2025 at 7 p.m. in the Zionsville Town Hall Council Chambers. Public notice will be posted in compliance with the Indiana Open Door Law. Again, please note that we will not have a meeting, mid-January meeting due to the Martin Luther King, Jr. holiday so at this point I will adjourn the meeting. Thank you all very much.

Burk Thank you.

Sampson Thank you.

Lacy Thank you.

Stein Thanks everyone.

Re: 2024 Corrections Claims Register

Let me start off by saying, **these are not new claims**. They have already been approved throughout 2024. This list represents claims that have had a correction made for one reason or another. Corrections need to be presented to Council, more as a formality than anything. A few reasons a correction might be made are listed below.

- If a department reaches out and states that they should have paid an item from a different line (as long as the change makes sense), we make the correction.
- An actual input error.
- Encumbrances – most of the time invoices that are tied to encumbrances start coming in for payment prior to us getting the year closed and encumbrances entered. In this case, once the encumbrances are entered, we have to void the original transaction and re-enter it tying the encumbrance to it. You will notice these on the report because they have a PO# listed in the PO column next to the transaction.
- An amount was input incorrectly. If the amount was less than what was originally approved, we void the transaction and input it correctly and make the payment. If the amount is more than what was originally approved, the payment is not made, and it would be re-presented in a Council meeting prior to payment being made (so it will not be on this list).
- A few things I will specifically point out on this report are:
 - Funds 2300 & 2301 – these corrections took place due to separating out the donation funds for Fire & Park. Any transactions that had taken place were voided and moved to their new corresponding funds.
 - If a transaction must be voided and it has multiple line items, the entire transaction has to be re-entered, not just the line that is being corrected. This is

the case with the 12/20 payroll. There was an error on ADP's side with some taxes. The amount ended up being less than what was approved, but it affected a couple of lines. The entire Payroll entry (and its many lines) had to be voided and re-entered. That's the reason for all the 12/20 Payroll entries on the report. There are a few other instances where multiple line items were involuntarily involved with a transaction being corrected, but none as large as the payroll item.

Please keep in mind that even though this register is titled "2024 Corrections" these are not all due to errors being made. This is being presented for transparency and 2024 closeout.

I hereby certify that each of the above listed vouchers and the invoices, or bills attached there to, are true and correct and I have audited same in accordance with IC 5-11-10-1.6.

RE: Consideration of an Ordinance Amendment Regarding Street Lights (Petition# 2024-76-OA)
Address: Town-Wide

On December 16, 2024, the Plan Commission heard Petition #2024-76-OA to amend Section 193.060(A) of the Town's Subdivision Control Ordinance. This section deals specifically with requirements for the provision of street lights within a subdivision; the required spacing of said lights; the approval of said lights; the maintenance of and costs related to the operation of said lights; the responsibility of replacement cost of said lights; and the general design of said lights. The Commission forwarded a unanimous favorable recommendation to the Town Council. The Plan Commission certification is attached.

This proposal was initiated by town staff. Staff seeks approval to amend this section of the Subdivision Control Ordinance to remove the Town's responsibility for payment of the energy/electric bills and the costs of replacement of standard pole-mounted gooseneck/cobra arm light assembly. The proposed Town Council Ordinance amending Section 193.060(A) of the Town's Subdivision Control Ordinance is attached.

MEMORANDUM

TO: Town of Zionsville Town Council
FROM: Mike Dale, Director of Planning and Building
DATE: 23 January 2025
RE: **Consideration of an Ordinance Text Amendment** for 9.4 ± acres (Lots #10, and #11) in the Creekside Corporate Park PUD

History:

In 2015, the Town of Zionsville rezoned 75± acres of town-owned property to the Creekside Planned Unit Development ("Creekside PUD") under Docket #2015-02-Z. Revisions to the PUD ordinance occurred in 2016 (Docket #2016-16-Z), 2018 (Docket #2018-15-Z), 2020 (Docket #2020-15-Z), and most recently in 2022 (Docket #2022-60-Z).

At the January 21, 2025, regular meeting, the Plan Commission heard Petition #2024-74-Z, RFPDI LLC's request to amend the PUD ordinance, and forwarded a unanimous favorable recommendation to the Town Council.

Summary of Proposed Rezoning Ordinance Details:

The 75± acre Creekside Corporate Park PUD is divided into five subareas ("A", "B", "C", "D", & "E"), with each subarea having its list of permitted uses and development standards. This proposed PUD ordinance text amendment would revise the sign and architectural standards for Subarea "E".

The proposed text amendment changes the highly specific sign standards for Subarea "E" (Section 1.20, M) to a more generalized set of standards based on generic (non-specific) tenants and adds lighted accent bars as an architectural lighting option (Section 1.21, K). The proposal acknowledges current signage on the site and future signage needs. All other standards within the existing PUD ordinance would be unchanged. The following link is to the Plan Commission's staff report, which includes related maps and supporting documentation: [2024-74-Z: Staff Report and Exhibits](#).

Attached for your review is the proposed town ordinance with exhibits, including the Plan Commission's certification to the Town Council.

Please contact me or Owen Young if you have any questions regarding this proposal.

1.1 Intent

The intent of Creekside Corporate Park is to:

- A. Develop sensitively, providing a transition from the industrial zoning to the east to the village zoning to the west and northwest.
- B. Reasonably develop responsibly, preserving the terrain and prime natural amenities that exist on the site.
- C. Enhance the gateway into Zionsville via 106th Street.
- D. Set the benchmark for undeveloped or under-developed land along 106th Street.
- E. Not require each developable lot to have its own open space, but instead preserving the ravines for aesthetic and recreation purposes.
- F. Not require each developable lot to have stormwater detention basins, but instead utilizing low impact development techniques to meet stormwater regulations.
- G. Allow land uses that will complement the region, add high quality jobs, and encourage higher quantity of jobs per square foot of building space.
- H. Allow complementary support businesses that are subordinate to the primary permitted uses; and
- I. Provide a trail network for recreation and pedestrian transportation purposes, allowing employees an expedited route to South Main and the Village.

1.2 Applicable Land

See Exhibit A for the boundaries of the Creekside Corporate Park PUD. Exhibit A shows a conceptual location for an internal street and internal curb cuts. The exact design, length and alignment of this route is subject to change upon further engineering study.

Exhibit A – Creekside Corporate Park PUD Boundary

Creekside Corporate Park PUD

1.3 Subareas of the Creekside Corporate Park PUD

- A. Subarea A: Subarea A represents one of the districts on which the principal uses would be constructed. See Subarea A on Exhibit B.
- B. Subarea B: Subarea B is the smallest district and is isolated from Subarea A by natural areas. Because this subarea fronts a future rail-trail and 106th Street and because of lot size limitations, it is believed to be significantly different than Subarea A. See Subarea B on Exhibit B.
- C. Subarea C: Subarea C is predominantly the ravines and conservation areas being set aside for aesthetic, recreation and storm water confluence purposes. See Subarea C on Exhibit B.
- D. Subarea D: Subarea D is the largest district and represents the land on which the principal uses would be constructed. See Subarea D on Exhibit B.
- E. Subarea E: Subarea E is the NW corner of 106th Street and Creek Way and represents the land on which the principal uses would be constructed. See Subarea E on Exhibit B.
- F. Delineation: The exact delineation between subareas is subject to change upon further engineering and environmental study. Subarea A may increase by up to 10% and subarea B may increase by up to 30%. Both Subareas A and B may be decreased by as much as 55%

1.9 Interpretation of Land Uses

- A. Uses Not Listed: Any use not listed shall be considered not permitted. However, uses that are significantly similar and of no greater intensity or impact may be considered a permitted use or accessory use by the Zoning Administrator. For example: a frozen yogurt shop is not specifically permitted in Section 1.04, but Ice Cream Shop is permitted. Therefore, the Zoning Administrator may interpret a yogurt shop as a permitted use because it is significantly similar and of no greater intensity or impact than an ice cream shop.
- B. Ancillary Uses: Uses that are clearly subordinate, customary, and incidental to a permitted use or accessory use shall also be permitted when it is otherwise in full compliance with the Creekside Corporate Park PUD. A good example is a retail store or a corporate fitness center for employee use with a parking lot. The parking lot and fitness center would be an ancillary use.

1.10 Development Standards for Subarea A

- A. Review and Approval Authorization: The development standards listed below shall be subject to Zoning Administrator review and approval in perpetuity.
- B. Variances: Any variance to the below listed development standards shall be considered by the Zionsville Board of Zoning Appeals.
- C. Minimum Lot Width: 50 feet; 30 feet for lots connecting with the Creek Way cul-de-sac. Minimum lot width shall be measured at the Minimum Front Yard Setback.
- D. Minimum Lot Frontage: 50 feet on a Public Street or Private Street; 20 feet for lots connecting with the Creek Way cul-de-sac. Minimum lot width shall be measured at the right-of-way line.
- E. Minimum Front Yard Setbacks: Measured from the right-of-way.
 1. *From Internal Public or Private Streets*: 30 feet for buildings, 15 feet for parking lots.
- F. Maximum Building Setback: Measured from the right-of-way.
 1. *From Internal Public or Private Streets*: Not applicable.
- G. Minimum Side and Rear Yard Setback: Measured from the lot lines.
 1. *Minimum Side Yard*: 30 feet for buildings, 5 feet for parking lots.
 2. *Minimum Rear Yard*: 30 feet for buildings, 10 feet for parking lots and where adjacent to Subarea C.
 3. *Minimum Property Boundary Setback*: The minimum building setback from the rear property line, adjacent to single-family residential, shall be forty (40) feet; and the minimum parking lot setback from the rear property line, adjacent to single-family residential, shall be thirty (30) feet.
- H. Maximum Height: 60 feet for all buildings, provided that the minimum required setbacks be increased by one-half (1/2) foot for each one (1) foot of building height above forty-five (45) feet.
- I. Off-Street Parking: See the Zionsville Zoning Ordinance, as amended.
- J. Off-Street Loading: Shall be limited to two (2) truck loading bays for buildings over 20,000 main floor square feet and one (1) bay for buildings between 8,000 and 20,000 main floor square feet. Buildings smaller than 8,000 square feet are not permitted truck loading bays. Any building that is not able to locate truck loading bays in a non-conspicuous facade or otherwise aesthetically shield them from view from a Public Street shall not be permitted truck loading bays.
- K. Wall Signs for Single-Tenant Buildings and Multiple-Tenant Buildings with Interior Entrances: The following provision applies to single-tenant buildings and multiple-tenant buildings that have

Creekside Corporate Park PUD

entrances off of interior hallways. Each facade facing a Public Street may have one (1) wall sign above a featured main entrance, in the parapet at the top of the building, or in an architecturally designed location on the front façade. Under no circumstance shall more than two (2) wall signs be permitted on one (1) primary structure. Wall signs shall be limited by one of the following:

1. *Large Front Facade (parapet)*: Maximum of 120 square feet of sign area for front facades greater than 4,000 square feet when the sign is located along a parapet at the top edge of the building.
 2. *Large Front Facade (above entrance)*: Maximum of 80 square feet of sign area for front facades greater than 4,000 square feet when located above a featured main entrance.
 3. *Small Front Facade (parapet)*: 3% of the total front facade area shall be the maximum square feet of sign area. This standard applies to front building facades less than 4,000 square feet in area.
 4. *Small Front Facade (above entrance)*: 2% of the total front facade area shall be the maximum square feet of sign area for a sign located above a featured main entrance. This standard applies to front building facades less than 4,000 square feet in area.
 5. *Facade Visible from West 106th Street (oriented to rear yard)*: shall be permitted to be improved with a rear facing sign not exceeding 12 square feet in size (being illuminated or non-illuminated).
- L. Wall Signs for Multiple-Tenant Buildings with Exterior Entrances: The following provision applies to multiple-tenant buildings with entrances to tenant spaces from the exterior. Each tenant with an exterior entrance may have one (1) wall sign limited to thirty (30) square feet, or one (1) foot of sign area per lineal foot of tenant frontage, whichever is greater. Each tenant sign shall be located in a space designed for wall signs above that tenant's entrance.
- M. Ground Signs: Ground Signs are not permitted by right. See the Architectural and Landscape Requirements for Subarea A in the next section for consideration of ground signs.
- N. Screening Requirements: Parcels adjacent to the Williams Glen apartment complex shall be required to install screening along the common property line, and within twenty (20) feet of that property line. Landscaping shall consist of native canopy tree species planted at a rate of one tree per forty (40) feet of contiguous boundary. The spacing of those trees should be irregular such to create a natural looking buffer. Therefore, the minimum spacing shall be twenty (20) feet and maximum spacing sixty (60) feet.
- O. Outside Storage and Operations: Not permitted
- P. Pedestrian Connectivity: All buildings shall have a pedestrian/bikeway system in compliance with the following requirements:
1. *Sidewalk Connection*: A minimum six (6) foot wide sidewalk shall functionally and efficiently connect the primary building entries with the public sidewalk or path system.
 2. *Internal Trail System Connection*: Any lot which abuts the internal trail system located in Subarea C shall provide a connection between those trails and the building. Said connection shall be a sidewalk or otherwise improved path, allowing a connection for pedestrians and bicyclists. If the internal trail system in Subarea C has not yet been installed, this requirement may be delayed up until the internal trail system is built. Upon its completion, the adjacent property owner shall be required to install their connection within six (6) months.

1.11 Architecture and Landscape Architecture Requirements for Subarea A:

- A. Review and Approval Authorization: The architecture of all initial buildings shall be subject to the Creekside Committee review and approval. The details of an approved project shall be written into the purchase agreement for the land being sold. Changes to a pre-existing building after the initial construction (e.g., an addition facade alteration, or the like) shall be reviewed by the Creekside Committee or the Zionsville Redevelopment Commission if the Creekside Committee is no longer in effect.
- B. Interpretation and Application of Guidelines: The Creekside Committee will interpret and determine the applicability of the below guidelines to each project. The Creekside Committee will strive for

Creekside Corporate Park PUD

architecture and site improvements that are high quality, timeless, appropriate for a gateway into downtown Zionsville, and that create a development-wide aesthetic character.

C. Building Height Guidelines:

1. Any building is preferred to be two (2) stories or more. However, buildings partially or fully within sixty (60) feet of the northern property line and adjacent to single-family residential lots, shall be no greater than two (2) stories.

D. Building Size Guidelines: A high floor area ratio (FAR) is desired. It is the desire of this development to fully utilize each parcel and to not allow land to be wasted. Green space beyond setbacks, parking lot islands, screening and buffering is discouraged (because the overall development is intended to have a large percentage of greenspace, trails, and park amenities). Similarly, an unnecessarily large parking lot is not desired.

E. Building Facade Guidelines: Any new building or building addition shall have the following characteristics and features:

1. Any building shall have high architectural standards, however only the facades and building features clearly visible from Creek Way (the internal street) are required to meet that standard.
2. *Facades that Face Residential Uses:* Any building facade facing Williams Glen Apartments or single-family residential lots to the north shall have a high degree of architectural character as to be a good neighbor to that residential use. This provision shall not apply if the building is greater than 150 feet from the applicable property line.

F. Building Material Guidelines: In order to create variation and interest in the built environment, all new buildings or building additions shall:

1. Utilize at least two (2) building materials; excluding: windows (e.g., glass and frames), doors, and roofing material.
2. The primary exterior material for any facade visible from 106th Street shall be one of the following:
 - a. brick,
 - b. architectural concrete that is colored and textured to closely resemble brick or stone,
 - c. External Insulation and Finish System (E.I.F.S.), or
 - d. stone.
3. The primary exterior material for any facade not visible from 106th Street shall be one of the following:
 - a. brick,
 - b. wood,
 - c. fiber cement,
 - d. architectural concrete that is colored and textured to closely resemble brick or stone,
 - e. External Insulation and Finish System (E.I.F.S.), or
 - f. stone.

G. Roof Guidelines:

1. *Pitched Roof:* Pitched roofs shall only be permitted on smaller lots toward the rear of the development. Pitched roofs shall be simply and symmetrically pitched and only in the configuration of gables and hips, with pitches ranging from 5:12 to 12:12. Pitched roofs shall be clad in architectural, dimensional shingles or raised seam metal when done so for rainwater collection or other green building practice. Roof color shall be complementary to the design of the building. The Creekside Committee may approve additional material that clearly satisfies the intent of this subsection, and that is complementary of the building's architecture.
2. *Shed Roofs:* Shed roofs are generally not permitted

Creekside Corporate Park PUD

3. *Flat Roofs*: Flat roofs are permitted when consistent with the selected style of architecture, and if the top edge of the facade has some adornment or architectural character. Green roofs are permitted. Additionally, any rooftop mechanical equipment shall be reasonably screened.
4. *Roof Design*: In no case shall rooftop mechanical equipment be visible from 106th Street. All vents, attic ventilators, turbines, flues and other roof penetrations shall also be discrete.
- H. Entrance Guidelines: The main building or tenant space pedestrian entrances shall be defined and articulated by architectural elements such as lintels, pediments, pilasters, columns, and other design elements appropriate to the selected architectural style and details of the building as a whole. The location, orientation, proportion and style of doors shall reflect the chosen style of the building.
- I. Window Guidelines: All window designs shall be compatible with the style, materials, color, details and proportion of the building. All facades of a building shall have windows.
- J. Awning and Canopy Guidelines: Shall be the discretion of the Creekside Committee.
- K. Lighting Guidelines:
 1. *Shielding*: Any exterior lighting on any site shall be shielded to prevent light pollution (i.e., skyward) and light trespass (i.e., shining toward neighbors).
 2. *Height*: The maximum height of any light fixtures, whether freestanding or mounted on a facade, for illumination of the site shall be twenty (20) feet.
 3. *Consistency*: Light standards and fixtures on any lot, including free-standing light fixtures, those attached to buildings, security lights, and architectural lights, shall be of consistent design and material. Additionally, parking lot lights shall be of uniform size and height.
 4. Facade illumination or sign lighting shall be carefully directed and shielded so that the light element is not visible from points along an adjacent public Right- of-Way.
- L. Loading Dock Guidelines: Loading docks shall not face 106th Street or the internal street, be visible from 106th Street, be visible from Williams Glen Apartments or the single-family residential lots to the north, or otherwise be a visual nuisance from an adjacent building.
- M. Landscaping Guidelines: Plants and hardscaping elements shall be chosen and installed to accomplish the following:
 1. *General Aesthetic*: To generally enhance the overall character of the site.
 2. *Screen Headlights*: To screen the headlights of cars from shining onto adjacent residential properties, and onto 106th Street and the internal street.
 3. *Relieve Heat Island Effect*: To utilize trees in and/or adjacent to parking lots to provide shade and aesthetic relief, especially in large parking lots. At least one landscape island shall be established per sixty (60) parking spaces, and at least one canopy or ornamental tree shall be planted in said island. Landscape islands shall be at least nine (9) feet square.
- N. Bufferyard: Lots adjacent to the northern property line adjacent to single-family residential lots shall install plant material, and/or a fence or wall for effective buffering. The Creekside Committee shall be responsible for approval of buffering proposals and may participate in the design discussions prior to submittal for approval.
- O. Ground Sign Guidelines: Ground signs are generally discouraged. However, a development-wide internal way- finding system utilizing high-quality sign materials is encouraged where appropriate.

1.12 Low Impact Development for Subarea A:

- A. Parking Lot Design: Parking lots shall be designed using low impact development best practices to reduce, absorb, and filter storm water rather than pipe it to a retention pond or other outlet. The use of french drains, cisterns, brick pavers, pervious pavement, rain gardens, swales, vaults, and the like should be considered.
- B. Stormwater Runoff from a Building: The impervious surface created by a building should be offset through utilization of green roofs, pervious sidewalks, brick pavers, rain gardens, rain barrels, cisterns, swales, selection of plant material, and the like.

Creekside Corporate Park PUD

- C. Retention Pond/Detention Basin: Retention ponds are strongly discouraged. Short-term detention basins are supported.

- F. Maximum Front Yard Parking Lot: Any parking lot located between the front building line and 106th Street's right- of-way shall be limited to either a single loaded parking area or a double loaded parking area, served by not more than one (1) interior access drive or aisle, and where the interior access drive or aisle is located generally parallel to the street right-of-way.

Each facade facing a Public Street or side facade facing a parking lot may have one (1) wall sign. Each wall signs shall be limited to 60 square feet of sign area.
- K. Wall Signs for Multiple-Tenant Buildings with Exterior Entrances: The following provision applies to multiple- tenant buildings with entrances to tenant spaces from the exterior. Each tenant with an exterior entrance may have one (1) wall sign limited to thirty (30) square feet, or one (1) foot of sign area per lineal foot of tenant frontage, whichever is greater. Each tenant sign shall be located in a space designed for wall signs above that tenant's entrance.

Said connection shall be a sidewalk or otherwise improved path, allowing a connection for pedestrians and bicyclists. If the internal trail system in Subarea C has not yet been installed, this requirement may be delayed up until the internal trail system is built. Upon its completion, the adjacent property owner shall be required to install their connection within six (6) months.

Said connection shall be a sidewalk or otherwise improved path, allowing a connection for pedestrians and bicyclists. If the internal trail system in Subarea C has not yet been installed, this requirement may be delayed up until the internal trail system is built. Upon its completion, the adjacent property owner shall be required to install their connection within six (6) months.

1.18 Architecture and Landscape Architecture Requirements for Subarea D:

- B. Interpretation and Application of Guidelines: The Creekside Committee will interpret and determine the applicability of the below guidelines to each project.  3. *Facades that Face Residential Uses:* Any building facade facing Williams Glen Apartments or single-family residential lots to the north shall have a high degree of architectural character as to be a good neighbor to that residential use. This provision shall not apply if the building is greater than 150 feet from the applicable property line.

The Creekside Committee may approve additional material that clearly satisfies the intent of this subsection, and that is complementary of the building's architecture.
 2. *Shed Roofs*: Shed roofs are generally not permitted

Landscape islands shall be at least nine (9) feet square.
- N. Bufferyard: Lots adjacent to the northern property line adjacent to single-family residential lots shall install plant material, and/or a fence or wall for effective buffering. The Creekside Committee shall be responsible for approval of buffering proposals and may participate in the design discussions prior to submittal for approval.

Ground Signs located along 106th Street shall be subject to the Creekside Committee and shall be similar in area, height, location, materials, and lighting as to assure a uniform and highly aesthetic development-wide character.

1.19 Low Impact Development for Subarea D:

- A. Parking Lot Design: Parking lots shall be designed using low impact development best practices to reduce, absorb, and filter storm water rather than pipe it to a retention pond or other outlet. The use of french drains, cisterns, brick pavers, pervious pavement, rain gardens, swales, vaults, and the like should be considered.
- B. Stormwater Runoff from a Building: The impervious surface created by a building should be offset through utilization of green roofs, pervious sidewalks, brick pavers, rain gardens, rain barrels, cisterns, swales, selection of plant material, and the like.
