For Immediate Release:

March 8, 2019

Update on the Zionsville Road project

The closure of Zionsville Road is currently scheduled to begin on April 1, 2019. This reconstruction project involves the widening of a one-mile section of Zionsville Road, converting it from its current two-lane configuration to three lanes by widening the existing lanes and adding a center turn lane between Technology Center Drive and 106th Street.

This project also includes adding a 10' multi-use pathway the entire length of the project on the west side of the road as well as a 10' multi-use pathway on the east side of the road from Inglenook and Zionsville Cemetery north to 106th Street.

To minimize cost and project duration, the road will be closed to through-traffic beginning April 1 and is anticipate to continue through November. Local access for residents to and from homes and businesses will be from the north end of the project. No traffic will be permitted south of the Vonterra subdivision entrance.

Changes and updates will be posted on the Town of Zionsville website when new information is available.
