Priority asks that you place your carts at the curb with the lid opening facing toward the street and at least 3 feet away from each other. Carts should not be placed close to vehicles, mailboxes, and landscape.

Spring and fall brush and limb collection for residents in the urban service district

- Typically takes place the last two full weeks of April and the first two full weeks of October.
- A means for residents to dispose pruned and fallen limbs and brush less than 6" in diameter.
- Residents are to stack their brush and limbs along the street in front of their homes just behind the curb or just off the street
- There is a specific schedule for each area of town and the schedule is posted on the website each year.

Heavy trash collection for residents in the urban service district

- Conducted each spring after brush and limb collection, typically the first week of May.
- Provides an opportunity for residents to dispose of heavy, non-toxic materials (furniture, appliances, etc.) not normally collected in the weekly trash service.

Fall leaf collection for residents in the urban service district

- Typically beginning in mid-October each year, DPW collects leaves placed along the streets in front of each residence. This service continues through the first week of December.
- Residents are to rake or blow their fallen leaves to the roadside in long, narrow rows.
- Only leaves are collected during this process. Material that is not suited to the vacuum trailers will be left curbside (sticks, garden trimmings, etc.).

Winter salting and plowing

- DPW plows and applies salt to public roadways as deemed appropriate.
- DPW cannot guarantee a specific time or threshold that would determine when we commence salting or plowing.
- Main roads are cleared as a priority when plowing and the decision as to whether to plow all or major interior subdivision roads is determined by existing and forecast weather conditions.
